

## Thuja occidentalis 'Smaragd'

*The tall stately growth habit of Thuja 'Smaragd' adds a formal look to any garden setting and when space is limited, height and structure is required this Thuja is the perfect solution.*

### **Where to Grow**

- *As feature plant in garden beds*
- *Formal hedges for boundaries*
- *In containers to give a formal look to patio or courtyards*

### **Planting**

- *Plant from early winter through to early summer*
- *Requires well drained soil*
- *If planting in containers, use a good container mix containing a slow release fertilizer, ensuring the container has good drainage. Water well*
- *Prefers full sun or semi shade*

### **Care**

- *Water well while the plant is establishing itself*
- *If planted in containers do not let dry out*
- *Feed early Spring and Autumn with sheep pellets or slow release fertiliser*
- *Little pruning required*
